

NITE OWL[®] SPOTLIGHTS

75,000 to 1,000,000 Candlepower Models
Lifetime Guarantee on LEXAN[®] Housing

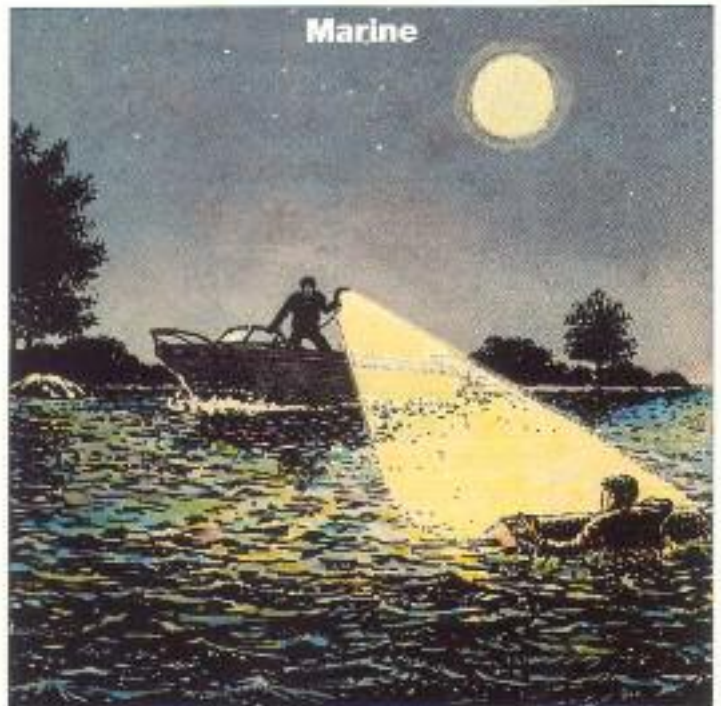

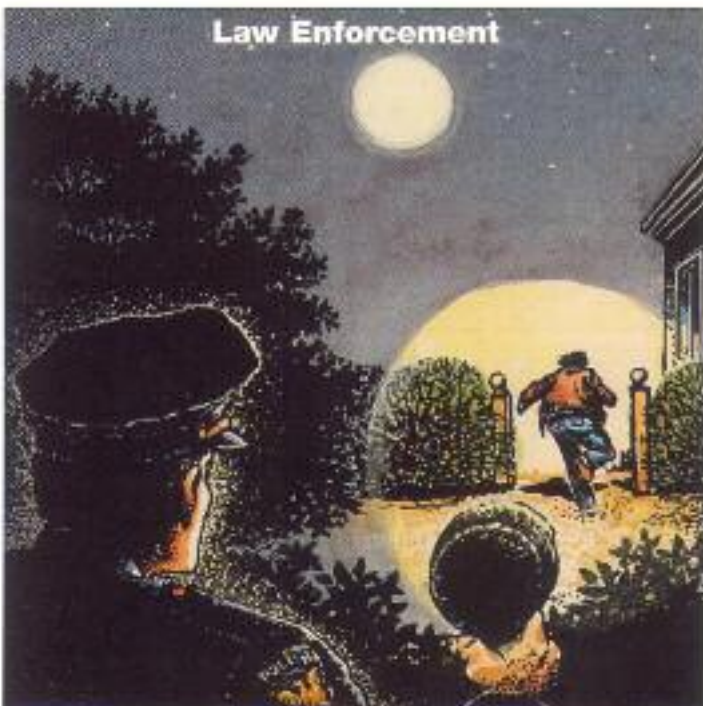

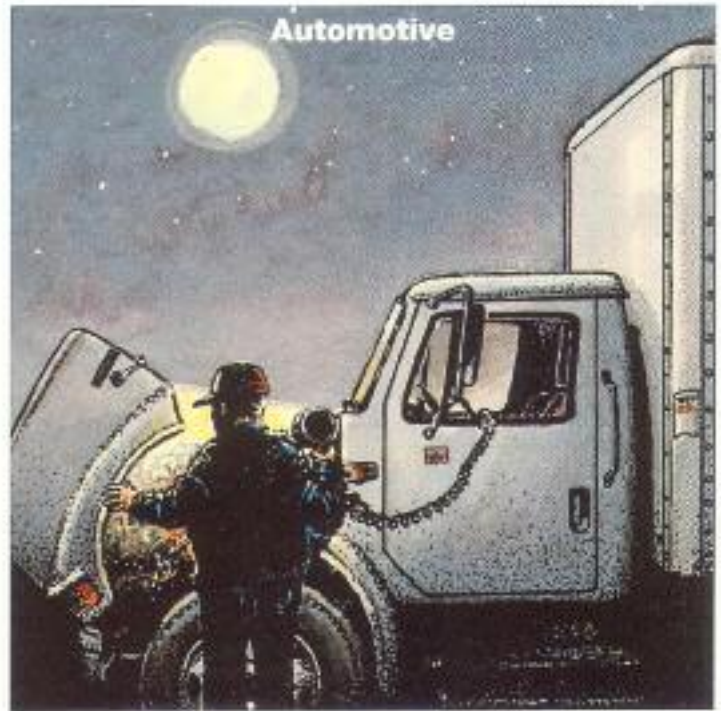

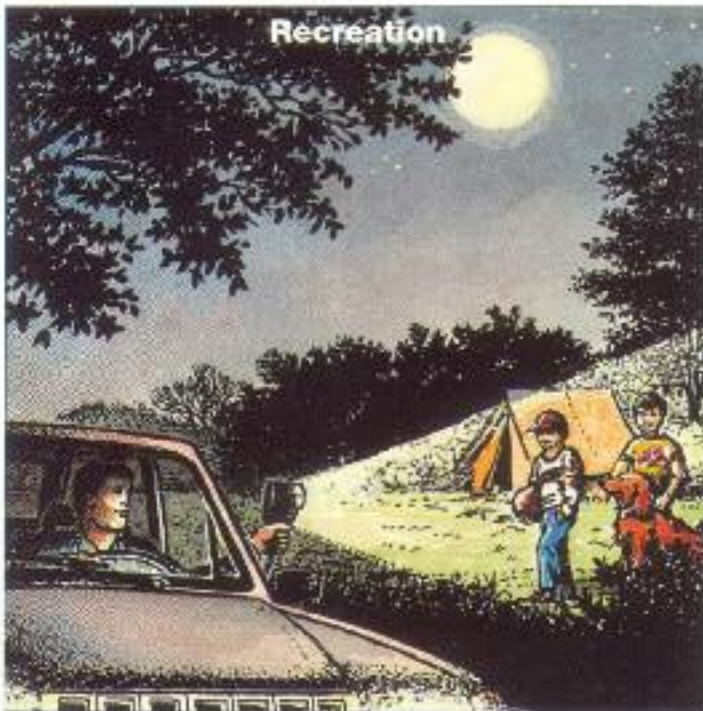

WF Harris Lighting

W.F. Harris Lighting is proud to offer a complete line of Nite Owl® spotlights and accessories. Available in 12V and ranging in candlepower* from 75,000 CP to 1,000,000 CP, each model features a sure-grip handle and stainless steel screws. The impact resistant LEXAN® polycarbonate housing tolerates exposure to high lamp temperatures and weather conditions without deterioration.

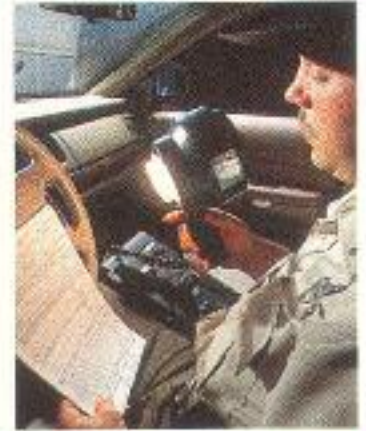

Most models offer a choice of a 6' or 10' straight cord to plug into your vehicle cigarette lighter. An optional opal or red map light or magnet is available. Additional accessories extend the versatility of these products – patented swivel mounts; snap-on LEXAN® protective lenses; extension cords, including battery clip extension; and portable batteries and chargers.

*Beam candle power may vary. Classification of beam candle power is based on statistical analysis of components and comparable study of similar units manufactured. Analysis and comparison has been conducted by an independent agency.

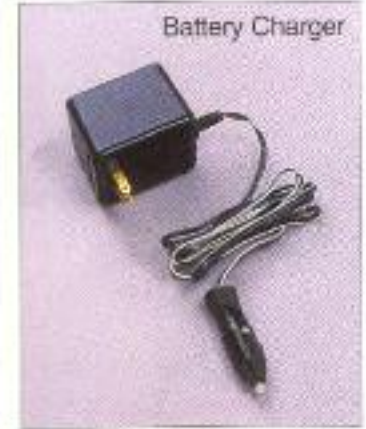

LEXAN® is a registered trademark of the General Electric Company.
